

CREVIO

TERMS & CONDITIONS

Effective Date: [DD Month YYYY] | Last Updated: [DD Month YYYY]

These Terms & Conditions ("Terms") govern access to and use of Crevio ("Crevio", "we", "us", or "our"), including its website, applications, software, contract-management tools, campaign-management systems, analytics, monitoring functionality, payment infrastructure, and related services (collectively, the "Platform").

Crevio is an independent platform designed to facilitate, monitor, and execute contractual engagements between brands, agencies, and creators.

By creating an account, accessing the Platform, participating in a Campaign, accepting a Contract, or otherwise using any Crevio service, you ("User", "you", or "your") acknowledge that you have read, understood, and agreed to these Terms. If you do not agree to these Terms, you must not access or use the Platform.

1. DEFINITIONS

"Brand" means a business, company, agency, advertiser, or other entity using Crevio to engage a Creator.

"Creator" means an individual or entity providing content creation, promotional, influencer, UGC, or related services through Crevio.

"Campaign" means a collaboration or commercial engagement established between a Brand and Creator through the Platform.

"Contract" means the legally binding agreement governing a Campaign, whether provided by the Brand or generated through Crevio.

"Deliverables" means the content, services, publications, milestones, promotional activities, or other obligations specified in a Contract.

"Campaign Amount" means the amount agreed between a Brand and Creator for the relevant Campaign, excluding the applicable Crevio Fee unless otherwise specified.

"Crevio Fee" means the platform fee charged by Crevio for applicable Services.

"Penalty" means an amount imposed for a violation of these Terms, Crevio guidelines, or applicable Contract obligations.

2. ABOUT CREVIO

Crevio is an independent contract-management and contract-execution platform.

The Platform is designed to facilitate the lifecycle of a Brand-Creator engagement, including verification; Campaign creation; Contract creation and management; electronic acceptance; Deliverable management; automated monitoring; analytics; compliance tracking; payment collection and temporary holding; payment release; and resolution of platform-level Contract issues.

Crevio acts as an independent intermediary between Brands and Creators. Crevio does not represent, employ, partner with, or act as an agent for either party.

Crevio's role is to facilitate and monitor the contractual relationship established between the Brand and Creator.

3. USER ELIGIBILITY AND ACCOUNT INFORMATION

You must provide accurate, complete, and current information when registering for an account or using the Platform.

Depending on the nature of your account, Crevio may require information relating to your identity, business, social-media accounts, audience, analytics, payment details, or other information reasonably necessary to provide or secure the Services.

You are responsible for maintaining the confidentiality of your account credentials and for activity conducted through your account.

You must not impersonate another person or entity, provide false or misleading information, create fraudulent accounts, manipulate verification information, or use another person's account without authorization.

4. VERIFICATION AND AUTHENTICATION

Crevio may verify Brands and Creators before permitting them to access or use certain Platform functionality.

Verification may include, as applicable, reviewing identity; business legitimacy; social-media accounts; account ownership; audience information; engagement and performance analytics; submitted documentation; and other relevant information.

Verification is intended to improve Platform integrity and does not constitute an endorsement, guarantee, certification, or representation that a User will perform its contractual obligations.

Crevio may conduct additional verification at any time where reasonably necessary.

False, fraudulent, or materially misleading information may result in account suspension or permanent termination.

5. BRAND OBLIGATIONS

Brands are responsible for ensuring that all Campaign information supplied through the Platform is accurate, lawful, reasonable, and capable of being performed.

Campaign information may include objectives; budget; Deliverables; deadlines; content requirements; publication requirements; platforms; usage rights; exclusivity; performance requirements; payment terms; and other relevant conditions.

A Brand must not create Campaigns involving unlawful, fraudulent, deceptive, abusive, or prohibited activities.

Brands are responsible for complying with applicable advertising, intellectual-property, consumer-protection, and other laws relevant to their Campaigns.

6. CREATOR OBLIGATIONS

Creators must provide truthful and accurate information concerning their identity, social-media accounts, audience, analytics, experience, and capabilities.

Creators must perform their obligations in accordance with the applicable Contract.

Creators must not manipulate, falsify, or artificially inflate followers, views, engagement, analytics, audience information, performance metrics, or other Campaign-related information.

Creators must also comply with applicable intellectual-property, advertising, disclosure, and other legal requirements.

7. CAMPAIGNS AND CONTRACTS

A Brand may use its own Contract or a Contract generated through Crevio where the Brand does not have a pre-existing Contract or elects to use Crevio's contract-generation functionality.

Crevio may provide templates, workflows, and automated tools for Contract creation.

A Contract becomes binding between the Brand and Creator when both parties have accepted it through the applicable Platform process.

Once accepted, neither party may unilaterally alter the Contract. Any modification requires mutual agreement and re-acceptance by both parties.

Crevio may maintain the official electronic record and applicable versions of Contracts executed through the Platform.

8. CONTRACT EXECUTION AND MONITORING

Crevio may monitor the execution of a Contract using automated systems, Platform records, analytics, integrations, timestamps, and other available information.

Depending on the Contract, Crevio may monitor Deliverables; deadlines; publication; content availability; milestones; performance; analytics; payment conditions; and other contractual requirements.

Where a specified condition is satisfied, Crevio may automatically proceed with the corresponding contractual workflow.

Where a condition is not satisfied, Crevio may issue a warning and proceed according to the applicable Contract and Crevio guidelines.

9. DELIVERABLES, APPROVALS AND REVISIONS

Creators must submit Deliverables in the manner and within the timeframe specified by the applicable Contract.

Crevio may verify whether Deliverables have been submitted, published, maintained, or otherwise performed as required.

Where revisions are permitted, a Brand may request a maximum of three (3) revision rounds, unless the Contract provides otherwise.

A revision request must have a legitimate basis under the applicable Contract.

A Creator may not refuse a legitimate revision falling within the agreed requirements and permitted revision limit.

After the permitted revision limit has been exhausted, further revisions require mutual agreement.

10. ANALYTICS AND PERFORMANCE DATA

Crevio may use Creator insights, supported social-media integrations, Platform records, and other available analytics to monitor Campaign compliance and performance.

Crevio may use such information to determine whether contractual conditions have been fulfilled.

Crevio does not guarantee any particular views, reach, engagement, conversions, sales, revenue, audience response, return on investment, or other commercial result.

Campaign performance ultimately depends on factors outside Crevio's control.

11. AUTOMATED EXECUTION AND PLATFORM DECISIONS

Crevio may use automated systems to determine whether specified contractual conditions have been met and to initiate corresponding workflows.

Crevio does not use automated functionality to create contractual obligations that were not agreed to by the Brand and Creator.

Where a material technical error affects an automated process, Crevio may investigate, reverse the affected process where appropriate, and restart the relevant workflow from the point at which the error occurred.

Significant or complex matters may be referred to Crevio's human review team.

12. PAYMENTS AND FUNDS

Where payment functionality is available, the standard payment flow is: Brand -> Crevio -> Creator.

The Brand must deposit the required Campaign Amount within the period specified by the applicable Contract.

Crevio may temporarily hold such funds solely for the purpose of facilitating and executing the relevant Contract.

This holding mechanism is not intended to constitute an escrow service unless expressly stated otherwise.

The timing and conditions for payment to a Creator depend on the specific Contract and may be linked to Deliverables, milestones, approvals, publication, performance requirements, or other agreed conditions.

A Creator may not withdraw held funds before the applicable release conditions are satisfied.

13. CREVIO FEE

Crevio may charge a platform fee of 2% of the Campaign Amount, unless a different fee is expressly disclosed or agreed.

The Crevio Fee is charged in addition to the Campaign Amount.

Example: Campaign Amount ■100,000; Crevio Fee (2%) ■2,000; Total Brand Payment ■102,000.

Once the Brand and Creator have accepted the applicable Contract, the Crevio Fee is non-refundable, except where otherwise required by applicable law or expressly determined by Crevio.

The Crevio Fee is separate from any Penalty or applicable tax.

14. TAXES AND PAYMENT-RELATED CHARGES

Applicable taxes, statutory charges, withholding amounts, transaction charges, and other legally required amounts may be calculated, collected, deducted, or accounted for during payment processing.

Crevio may issue applicable invoices, receipts, or other payment documentation where required.

Users must provide accurate information necessary for payment and tax processing.

15. CANCELLATION AND TERMINATION OF CAMPAIGNS

After a Contract has been accepted by both parties, neither party may unilaterally cancel the Campaign unless the Contract expressly permits such cancellation.

Where the Contract permits cancellation, cancellation requires the agreement of both parties unless termination is otherwise permitted under these Terms due to a violation or other specified circumstance.

Where a mutually agreed cancellation occurs, amounts properly refundable under the applicable Contract may be returned; applicable deductions may be made; and the Crevio Fee remains non-refundable once the Contract has been accepted.

16. FAILED OR DELAYED PAYMENTS

If a Brand fails to deposit the required amount within the specified timeframe, the relevant Contract may be terminated.

A Campaign may not proceed until required payment conditions have been satisfied.

Crevio is not responsible for payment failures caused by banks, payment processors, card networks, financial institutions, or other third parties.

17. PENALTIES AND ENFORCEMENT

A User who violates these Terms, Crevio guidelines, applicable Contract obligations, or applicable law may be subject to a Penalty.

Unless otherwise specified, Penalties are calculated against the total Campaign Amount.

Penalties may be imposed on the party responsible for the relevant violation and are payable to Crevio because they arise from violations of Crevio's Platform rules and requirements.

Where multiple violations occur, applicable Penalties may stack.

Penalty Schedule:

- Late delivery — 1%
- Fake analytics — 2.5%
- Failure to publish — 1%
- Removing content early — 2.5%
- Fraud — 10%
- Contract violation — 5%

For example, a 1% late-delivery Penalty combined with a 5% Contract-violation Penalty may result in a total Penalty of 6% of the Campaign Amount.

Crevio may update its Platform rules and Penalty schedule where reasonably necessary, subject to applicable law and appropriate notice.

18. PROHIBITED CONDUCT

Users must not use Crevio for or in connection with illegal activities; fraud; identity theft or impersonation; fraudulent payment activity; fake Campaigns; fake engagement or analytics; manipulation of performance data; copyright or intellectual-property infringement; misleading or deceptive conduct; harassment or abuse; unauthorized access; security attacks; malicious software; circumvention of Crevio's payment mechanisms; deliberate off-platform payment circumvention; or any activity prohibited by applicable law or Crevio guidelines.

Serious or repeated violations may result in permanent termination.

19. OFF-PLATFORM TRANSACTIONS

Users may communicate independently outside Crevio.

Users must not intentionally move a Campaign payment outside Crevio where doing so violates applicable Platform rules.

A violation may result in suspension, Penalties, termination, or other appropriate action.

Crevio is not responsible for any loss, fraud, dispute, payment failure, contractual disagreement, or other consequence arising from transactions or arrangements voluntarily conducted outside the Platform.

20. DISPUTES AND CREVIO REVIEW

Crevio is designed to resolve Campaign-related issues primarily through recorded Platform information and analytics rather than verbal disputes.

Crevio may rely on Contract terms; Campaign information; Deliverable records; analytics; timestamps; publication information; monitoring records; payment records; supported social-media data; Platform activity; and other information recorded through the Services.

Crevio may make the final Platform-level determination regarding whether applicable Contract or Platform conditions have been satisfied.

Most disputes may be resolved through automated systems.

Where a matter is significant, complex, or unsuitable for automated resolution, Crevio may refer it to its human review team.

An appeal may be considered where there is a credible indication that a material Crevio rule was violated, relevant information was not properly observed, or a material system error affected the decision.

21. FUNDS DURING DISPUTES

Where a dispute or review may affect payment, Crevio may temporarily hold the relevant funds until an appropriate determination has been made.

Following resolution, funds may be released to the Creator; returned to the Brand; reduced by applicable Penalties; distributed according to the Contract; or otherwise handled in accordance with these Terms and applicable law.

22. INTELLECTUAL PROPERTY AND CONTENT RIGHTS

Unless expressly agreed otherwise, Creators retain ownership of content they create.

A Brand receives rights to use Creator content only to the extent agreed between the Brand and Creator.

Such rights may include commercial use, advertising use, exclusivity, duration, territory, platforms, or other permissions.

Crevio may facilitate, record, monitor, or provide access to such rights where authorized, but Crevio does not acquire ownership of Creator content merely because that content is uploaded, stored, processed, or monitored through the Platform.

Crevio may access and process content to the extent reasonably necessary to provide the Services and perform Platform functions.

23. THIRD-PARTY PLATFORMS

Crevio may integrate with third-party platforms, including YouTube, Instagram, TikTok, Facebook, X, and other supported services.

Crevio does not control third-party platforms and is not responsible for their policies, API limitations, outages, account restrictions, data changes, algorithm changes, or other actions.

Where a third-party outage or API issue materially affects Campaign monitoring, affected Campaign functionality may be temporarily paused until the relevant issue is resolved.

24. SUSPENSION AND ACCOUNT TERMINATION

Crevio may suspend or terminate an account where it reasonably determines that the User has engaged in illegal activity; serious violations; repeated violations; fraud; material Contract violations; prohibited activity; or conduct presenting significant risk to Crevio or its Users.

During an investigation, affected Campaign and Contract activities may be frozen.

Where an account is terminated, active Campaigns may be frozen or terminated and outstanding funds may be handled according to the applicable Contract, Crevio guidelines, Penalties, and applicable law.

A permanently terminated User may not create another account to circumvent the termination.

25. TECHNICAL ISSUES AND PLATFORM AVAILABILITY

Crevio may periodically experience maintenance, updates, outages, bugs, technical failures, or interruptions.

Where a major technical fault materially affects the execution of a Campaign, affected Campaign activity may be paused.

If a major Crevio technical failure prevents proper execution of a transaction involving held funds, the relevant funds may be refunded as soon as reasonably practicable.

Crevio may correct technical errors, reverse affected automated processes where appropriate, and restart the relevant workflow.

Crevio does not guarantee uninterrupted, error-free, or continuously available Services.

26. NO GUARANTEE OF RESULTS

Crevio provides infrastructure for managing and executing Brand-Creator Contracts.

Crevio does not guarantee Creator performance; Brand performance; Campaign success; engagement; reach; conversions; sales; revenue; audience growth; profitability; return on investment; or any other commercial outcome.

A Brand and Creator independently decide whether to enter into a Campaign and are responsible for their respective business and contractual decisions.

27. PRIVACY AND DATA

Crevio's collection, use, storage, and processing of personal information are governed by the Crevio Privacy Policy, which forms part of the legal framework governing use of the Platform.

By using Crevio, you acknowledge that certain information may be processed for identity verification, Contract execution, analytics, monitoring, payment processing, fraud prevention, security, and other legitimate Platform functions, subject to the Privacy Policy and applicable law.

28. LIMITATION OF LIABILITY

To the maximum extent permitted by applicable law, Crevio shall not be liable for indirect, incidental, special, consequential, punitive, or similar losses arising from or relating to Brand or Creator conduct; Campaign performance;

lost profits or business opportunities; social-media performance; third-party platform failures; third-party payment failures; content disputes; intellectual-property disputes between Users; off-platform transactions; social-media account restrictions; third-party API changes; or circumstances outside Crevio's reasonable control.

Nothing in these Terms excludes or limits liability that cannot lawfully be excluded or limited under applicable law.

29. INDEMNIFICATION

To the maximum extent permitted by applicable law, you agree to indemnify and hold harmless Crevio, its affiliates, officers, employees, contractors, and service providers against claims, liabilities, losses, damages, costs, and expenses arising from your breach of these Terms; your violation of applicable law; your breach of a Brand-Creator Contract; your content or materials; infringement of third-party rights; fraudulent or misleading conduct; misuse of the Platform; or unauthorized use of another person's information or intellectual property.

30. MODIFICATIONS TO THE PLATFORM AND THESE TERMS

Crevio may modify, update, suspend, or discontinue Platform features, integrations, functionality, or Services where reasonably necessary for operational, technical, security, legal, or business reasons.

Crevio may also amend these Terms from time to time.

The updated Terms will identify the applicable Effective Date or Last Updated date.

Where required by law, Crevio will provide appropriate notice of material changes.

Continued use of the Platform after the effective date of updated Terms constitutes acceptance of the revised Terms to the extent permitted by applicable law.

31. ELECTRONIC ACCEPTANCE

Electronic acceptance through the Platform—including clicking "Accept," "Agree," "Accept Contract," or a similar confirmation—may constitute legally binding acceptance where permitted by applicable law.

Crevio may retain electronic records of Contract acceptance; Contract modifications; approvals; timestamps; Campaign activity; payment events; and other relevant Platform actions.

Such records may be used to establish the history of a User's activity and acceptance.

32. GOVERNING LAW AND DISPUTE RESOLUTION

These Terms shall be governed by the applicable laws of India.

Any dispute arising out of or relating to these Terms, the Platform, or the Services shall be subject to the dispute-resolution mechanism and jurisdiction specified by Crevio in its final legal configuration.

[Insert final state/city jurisdiction and arbitration/mediation provisions before publication.]

33. GENERAL PROVISIONS

If any provision of these Terms is determined to be invalid or unenforceable, the remaining provisions will continue to apply to the fullest extent permitted by law.

Failure by Crevio to enforce any provision does not constitute a waiver of its right to enforce that provision later.

These Terms, together with the Privacy Policy, applicable Contracts, and other terms expressly incorporated into the Platform, constitute the agreement governing your use of Crevio.

IMPORTANT NOTICE

This document is a business/legal drafting framework based on the operating rules provided for Crevio. Before publishing it as a legally binding agreement, it should be reviewed by a qualified lawyer in India. In particular, the final legal review should verify Crevio's payment-holding structure, tax treatment, penalty enforceability, electronic contracting mechanism, data/privacy obligations, limitation of liability, and dispute-resolution provisions. Unresolved legal-entity information is intentionally retained as placeholders.
